Create

Lights,

Camera,

Read!

This July let's connect our favorite books with technology. You will be able to make stories come alive through Movie Maker and Web 2.0 Tools.

Use text, images, audio, and video to retell, summarize or market a story.

Play all summer then take these tools back to the classroom in the fall!

Lights, Camera, Action—lots of Action!

Flip Video Cameras and Movie Maker

Use Video Flip Cameras to take audio/visual footage and load into Movie Maker Software.

Glogster EDU

Use this online poster Web 2.0 tool to create and share your text, audio, & video.

Big Huge Labs

Use this Web 2.0 tool to create a magazinc cover and/or a blog header.

Animoto

Another Web 2.0 tool that will turn your pictures into an awesome video.

Voki

Create an avatar, give it your voice or create a voice of it's own. This is pure fun!

Eyejot

Video messaging—send a one minute story!
